Disclaimer: This code level look-up reference tool* provides a list of outpatient services that always require an authorization regardless of setting or condition as a condition of payment. The service itself requires a medical necessity review. **This code level look-up reference tool does not include:**

- [Medical drugs](), which have their own code level look-up reference.
- [eviCore programs](), which has its own code level look-up reference.
- [Services that require an authorization]() based solely on setting (inpatient, home care or CHIP outpatient surgeries) or a certain conditions or scenarios (e.g., DME rentals or greater than $500, new technology, performed by non-participating providers).

Review the [Medical, Drug and Reimbursement policy bulletins]() library for more specific information related to coverage, medical necessity criteria, and payment rules.
